Tulsi Gabbard Wants Section 230 Terminated

tonyodarg.wordpress.com/2020/12/11/tulsi-gabbard-section-230

Tony Odarg December 11, 2020

Nothing good comes of bipartisanship; prove me wrong. This is no exception. Tulsi Gabbard has introduced a bill with Republican Paul Gossar of Arizona to break up big tech by repealing Section 230. Nothing good can come from this method of tackling the tech question. The solution is to keep the immunity big tech has from lawsuits, insist on antitrust with regards to mergers and competition and declare social media companies to be like phone carriers: you can't ban or censor anyone or any content without a court order. This bill will not pass or go anywhere, it is a virtue signal to people who are upset with Facebook. It is not a solution, it will make the problem worse and I oppose it.
